INDEX

TO VOL. XXXII. (VOL. VIII. THIRD SERIES) OF THE AMERICAN JOURNAL OF PHARMARY.

Abel, Joseph, on insect powder.....520
Acetate of ammonia.....523
Acetic acid, synethesis of.....445
Acidulous juices and syrups, preservation of.....553
Aconite, comparative value of the different species of.....225
Acrolein.....449
Action of tannin on ether and water.....322
Address, President Colcord's.....486
Address, President Kiersted's.....502
Adulteration of carmine.....361
Adulteration of rhubarb.....224
African turmeric.....58
Aiken, Prof. Wm. E. A., death from the careless use of a hair dye.....313
Alcoholic fermentation.....62
Alcohol in the animal organism.....269
Alkaloids, artificial.....268
Alkaloids, new test for the vegetable.....137
Alkaloids, their solubility in chloroform.....160
Alkaloids, their solubility in olive oil.....185
Alkaloids, isomeric.....178
Alkaloids, new reagent for.....235
Aloes, glycerole of.....84
Alstrœmeria, note on the fecula of.....289
Alstrœmeria ligtu.....291
Alstrœmeria peregrina.....290
Alumen exsiccatum.....16
Alumina, in nux vomica, phosphate of.....524
Allium sativum, a new hybrid of.....535
Amalgam of copper.....203
American pot and pearl ashes, analysis of.....132
American Pharmaceutical Association, notice of.....381
American Pharmaceutical Association, Proceedings of.....481
American Medical Times, notice of.....479
Ammonia and ammonium bases.....385
Ammonia, preparation of dry valerianate of.....109

Amount of cantharidin in different parts of the Spanish fly.....270
Analysis of beef's marrow.....559
Analysis of commercial glacial phosphoric acid.....195
Analysis of crab orchard salts.....238
Analysis of milk.....401
Analysis of Pennsylvania petroleum.....451
Analysis of Kamala.....551
Analysis of Tokay wine.....145
Analysis of red sandal wood.....6
Annual commencement of the Philadelphia College of Pharmacy.....283
Annual commencement of the Maryland College of Pharmacy.....283
Annual address on the events of the year, Dr. Coates'.....287
Antidote for opium, caffein an.....321
Appointments, professional.....384
Apparatus for the use of gas as fuel in Pharmacy.....529
Aromatic syrup of rhubarb.....329
Arsenic in trisnitrate of bismuth.....169
Arsenic, Reinsch's test for.....185
Arsenic, purification of sulphuric acid from.....88
Arsenic, on some failures of Marsh's apparatus for detecting.....350
Arsenic in commercial zinc.....402
Arsenic eaters of Styria.....435
Arsenious acid, influence of fats on the solubility of.....220
Arsenious acid, separation of, from phosphoric acid.....223
Artificial formation of tartaric acid.....86
Arabian manna.....266
Arsenic in a drinking water.....541
Assafetida, enquiries relative to.....54
Assafetida plaster, preparation of.....533
Australian dammar resin.....199
Attfield J., on the adulteration of carmine.....361
Atropia, production of, from American grown belladonna.....526

Bache, Dr. Franklin, on some points of chemical theory, &c.....385
Balsam copaiba, inquiries relative to.....57
Balsam of Peru, inquiries relative to.....58
Balsam Peru, on the source of.....296, 411
Balsam of Peru, on the production of.....302
Balsam of tolu, inquiries relative to.....58
Bakes, William C. and E. Parrish, on the preparation of lactucarium.....225
Bark of guaiacum, on crystals in.....47
Baryta, tartrate of.....45
Bassia flowers.....421
Baumhauer, H., on specific gravity of mixtures of alcohol and water.....349
Beef's marrow, analysis of.....559
Behaviour of sesqui salts of iron, with SO^2 and S^2O^2.....442
Belgian Pharmacopœia, new.....317

Bentley, Prof., remarks on taraxacum root.....337
Benzole from coal naptha, on pure.....144
Benzoic acid and some benzoates, on.....204
Benzoin, inquiries relative to 56
Berg, Dr. Otto, on crystals in the bark of guaiacum 47
Bismuth, arsenic in subnitrate of.....169
Bismuth, tartrate of.....246
Bitumenized paper tubing.....276
Bleaching ivory 180
Blondlot, M., on the influence of fats on the solubility of arsenious acid.....220
Bleekrode, Prof. S., on soap bark of South America.....241
Bolley, Prof., critical and experimental contributions to the theory of dyeing.....359
Botanical and pharmacological desiderata..... 49
Boracic acid in the sea water of the California coast.....320
Bromide and iodide of potassium..... 45
Bryan, John E., on the green fruit of Diospyros Virginiana.....215
Buchner, Dr. A., on the preparation of bromide and iodide of potassium..... 45

Caffein, an antidote for opium.....321
Calamus cordial.....114
Calamus root, preparations of.....112
California beer or yeast plant.....409
Campbell, Prof. Henry F., on caffein as an antidote for opium.....321
Canfield, Colbert A., on poison oak and its antidote.....412
Cantharidis, Ceratum..... 11
Cantharidin, amount of contained in different parts of the Spanish fly 273
Cap, M., on the tannate of bismuth.....246
Carmine, adulteration of.....361
Cardamoms, inquiries relative to..... 56
Carophyllin, preparation of..... 64
Carypha pumos, a species of palm 213
Carson, Dr. Joseph, on the fecula of alstrœmeria.....289
" " on the source of balsam of Peru..... 96
Cassava bread.....456
Cassia bark and cassia buds, inquiries relative to 56
Catechu, inquiries relative to..... 55
Catalogue of the class of the Philadelphia College of Pharmacy..... 95
Cavendish Society.....383, 284
Cellulose and the composition of wood..... 70
Cement, metallic..... 183
Ceratum cantharides..... 11
Cerium, oxalate of..... 1
Chalybeate water, aerated.....245
Chelaria saponaria.....245
Chemical researches on the essential oil of valerian.....138
Chemical News, notice of the 192

Chemical theory, some points of.....385
Chemical notes.....521
Chevreul, M., on the odors of perfumes..... 76
Chimaphila umbellata, chemical examination of.....254
Chimaphilin.....256
Chinovin.....143
Chinovic acid.....143
Chicago College of Pharmacy..... 89
Chloride of potassium.....521
Chloride of sodium, on a new form of.....545
Chlorodyne..... 187, 324
Chlorous acid, action of, on organic matter.....443
Church, A. H., on pure benzole from coal naptha.....144
" " on arsenic in a drinking water..... 541
Cinchona bark, inquiries relative to..... 56
Citrine ointment made with bear's oil.....212
Cincinnati College of Pharmacy, officers of.....284
Citrus lumia, essential oil of.....543
Cleaning glasses and capsules.....182
Cleland, Dr. John, on saccharate of lime.....167
Coal naptha, benzole from.....144
Copal, inquiries relative to..... 52
Copal resin..... 448
Colcord, Samuel M., annual report to the Amer. Pharm. Assoc.....486
Coca, essay on Erythroxylon.....417
Conversion of malic and tartaric into succinic acid.....449
Copper amalgam.....203
Copper tubes made by the galvanic process.....464
Contribution to the theory of dyeing.....359
Collodion, new application of..... 236
Colored flames.....275
Conrad, J. S., on syrup of squills prepared with diluted alcohol.....258
Compound solution of opium.....120
Composition of petroleum.....446
Comparative value of different species of aconite.....225
Composition of cacao.....544
Cowrie resin.....199
Crab orchard salts, analysis of.....238
Composition of vegetable gums.....366
Creecy, Wm. Pryor, on the resinous exudation of Liquidamber styraciflua....197
" " " on citrine ointment made from Bear's oil..... 212
Crew, Benjamin, Jr., on a new process for preparing valerianate of ammonia in dry crystals.....109
Crew, Benjamin, Jr., on iodide of propylamin 398
Criticism on the plural of Formula.....131
Croton malambo.....161
Croton oil, its detection in mixtures.....360

Crystals in the bark of guaiacum 47
Crystallized guaiac resin 247
Cubilose 184
Culture of elaterium at Hitchin, England 163
Cyclamen Europœum 154
Cyclamin 154

Daniell, Dr. W. F. on African turmeric 58
Davson, F. A., on cassava bread 456
Death from the careless use of a hair dye 313
Death from an overdose of chloroform 462
Decomposition of urea by nitrites 136
Decomposition of carbonic acid by red hot copper 448
Decoloration of solution of Indigo in SO^3 by volatile oils 46
Decoloration of syrup of sesqui-chloride of iron 319
Detection of phoshorus 153
Detection of croton oil in mixtures 306
Detection of adulterated rhubarb by essential oils 433
Detection of estimation of phosphorus and phosphoric acid 461
Determination of albumen and syntonin 444
Determination of grape and cane sugar and dextrine in their mixtures 81
Dianium, a new metallic element 425
Dickey, Jr., George S, on Monsel's persulphate of iron 10
Diospyros virginiana, on the green fruit of 215
Distilled waters, preservation of 554
Donnelly, Dr. E., note on cowrie resin 199
Dorat, Dr. Charles, on the production of balsam of Peru 302
Dohme, Gustavus, on fluid extract of Polytrichum juniperianum 329
Dr. Coates' address, notice of 378, 468
Dr. Coates' letter to the editor of the American Journal of Pharmacy 469
Double salts of iodide of antimony 558
Drying, on brick tiles 135
Drop or minim measure 428
Dussance, H., analysis of red sandal wood 6
" " on copper amalgam 203
Dugong Oil 230

Easy means of silvering copper and brass surfaces 324
Ecbalin, preparation of 259
Elaterin, preparation of 259
Elaterium, its production at Hitchin, England 163
Electro-physiology and electro-therapeutics 478
Electrotypic observations 448
Elemi, inquiries relative to 56
Eliot, Charles W., on impurities of commercial zinc 402
Elwell's medico-legal treatise, notice of 285
Emplastrum Assafœtidæ, on the preparation of 553

Enz, John B., on the preservation of medicinal substances.....553
Equivalent weights of magnesia and nickel.....446
Estimation of magnesia and the fixed alkalies.....445
Essential oil of citrus lumia.....543
Ether as a remedy for deafness.....557
Examination of oil of peppermint.....105
Explosion of hypophosphite of soda..... 87
Explosive nature of glonoin.....524
Explosive properties of oxalate of peroxide of mercury.....416
Extract of nux vomica, alcoholic.....135
Extracts, preservation of.....555
Extraction of potato starch.....184
Extract of hyoscyamus.....541
Extracts, on the preparation of some narcotic.....539
Eylerts, Dr. C., analysis of beef's marrow.....559

Fairbank, Samuel, chemical examination of chimaphila.....254
Fecula of alstrœmeria..... 89
Fermentation, alcoholic..... 62
Ferrar, M., on the amount of cantharidin in the different parts of the body of the Spanish fly.....270
Ferris, Charles E., on the explosive nature of glonoin.....524
Fewtrell, W. T., on some specimens of dugong oil.....230
Fluid extract of burdock.....178
Fluid extract of Leptandra virginica.....326
Fluid extract of Polytrichum juniperianum 329
Fluid extract of wild cherry bark.....399
Fougera, E., on liquor ferri iodidi and in a new compound of iodine and sugar..... 26
Formation of tartaric acid from milk, sugar and gum.....345
Frederking, C., on the decoloration of sulphate of indigo by volatile oils..... 46
" " purification of SO^3 from arsenic..... 88
Fremy, E. on the composition of vegetable gums.....366
Fritsch, Herman, on Carypha pumos, a species of palm.....213
Frodsham, J. Mills, on the preservation of leeches.....323
Fronefield, Jr. Charles, on the seeds of Phellandrium aquaticum.....211

Galbanum, inquiries relative to..... 55
Gallic and galhumic acids..... 79
Garratt's electro-physiology and electro therapeutics.....478
Garlic, (Allium sativum) a new variety.....543
Gas leakage nuisance.....467
General Council of Medical Education and Registration.....430
Gentele, J. G., on the determination of grape sugar, cane sugar and dextrine in their mixtures..... 81
Ginseng.....467
Girardin & Marchand, on herring pickle.....316

Glacial phosphoric acid, analysis of commercial.....193
Gleanings from the German Journals.....42, 135, 442
Gleanings from the French Journals.....220, 316
Glonoin, explosive nature of.....524
Glycerole of aloes.....84
Glycerole of kino.....467
Glycerin as a product of the alcoholic fermentation.....63
Grahame, Prof. I. J., on fluid extract of burdock.....178
Grains of paradise, inquiries relative to.....53
Grass oils, inquiries relative to.....55
Green fruit of Diospyros virginiana, on the.....215
Groves, Thomas B., on the preparations of taraxacum.....340
Grindelia hirsutula, an antidote for poison oak.....414
Ground nut oil.....292
Guaiacum, on crystals in the bark of.....47
Guaiacum resin, on crystallized.....247
Guaiacum resin.....445
Gum tragacanth, inquiries in relation to.....54
Gummic acid.....367
Gun cotton, on the use of, as a filter.....449
Gymnocladus Canadensis, bark of, used for soap.....244

Hair dye, death from the careless use of a.....313
Hanbury, Daniel, F. L. S., botanical and pharmacological desiderata.....49
" " note on a manufactured product of sea-weed called Japanese isinglass.....354
" " letter to the editor on the botanical source of balsam of Peru.....411
" " on bassia flowers.....421
Hart, Peter, on the explosive properties of oxalate of peroxide of mercury..416
Hasselden, A. F., on glycerole of aloes.....84
Heisch, Charles, Esq., F. C. S., on the arsenic eaters of Styria.....435
Herring pickle, analysis of.....316
Helianthus annuus, analysis of seeds of.....135
Hempel, C. W., on tests for minute quantities of iodides.....136
Hibiscus esculentus, root of.....224
Hlasiwetz, H., on chinovine.....143
" " on the part played by quercitrin in the coloring of flowers...222
" " on crystallized guaiacum resin.....247
Honeys, preservation of medicinal.....554
Hopkins' chalybeate water, analysis of.....477
Hoffman, Dr. Fred., on the detection of phosphorus.....153
Hooker, Sir William, on botanical and pharmacological desiderata.....49
Hunt & Pochin, on improvements in the preparation of resins.....333
Hypophosphite of soda, on the explosion of.....87
Hypophosphite of quinia.....410

Improvements in the preparation of resins.....333
Impure veratria.....42
Impurities of commercial zinc.....402
Influence of fats on the solubility of arsenious acid.....220
Insect powder.....520
Inspissated juices, preservation of.....554
Introduction of the tea plant into the United States.....252
Introductory lectures and addresses of Dr. G. B. Wood.....190
Iodide of iron pills.....201
Iodide of propylamin.....398
Iodide of antimony, double salts of.....558
Iodide of antimony and ammonium.....558
Iodide of antimony and sodium.....558
Iodide of antimony and barium.....558
Iodide of antimony and potassium.....558
Iodine, solution of, in aqueous ether.....524
Iodo acetic acid.....223
Iron by hydrogen, plumbago found in.....185
Iron, uses and properties of, for chloride of.....332
Ironmonger, The, a notice of.....480
Isomeric alkaloids.....178
Ivory, bleaching of.....180

Jacob Bell, memorial of.....187
Jacobi, M., on oxysulphuret of antimony.....267
Jamin, M., on the movement of fluids in porous bodies.....352
Japanese wax.....311
Japanese isinglass, on so-called.....354

Kamala from Rottlera tinctoria.....324
Kamala, proximate analysis of.....551
Karsten, H., on malambo bark.....161
Kavain, on.....133
Keffer, Fred. H., on red precipitate ointment.....412
Kiersted's address, President.....502
Kinovin.....444
Kolbe and Lautermann, synthesis of salicylic acid.....220

Lactic acid, preparation of.....448
Lactic acid into alanin, conversion of.....447
Lactic into propionic acid, transformation of.....447
Lactucarium, on syrup of.....218, 230
Lactucarium and its preparations, note on.....225
Lallemand, M., on the oil of camphor.....265
Landerer, Dr., on Arabian manna.....266
Lard, preparation of for medical use.....347
Lautermann, M., on the preparation of iodide of ethyl.....321

Leeches, on the preservation of....323
Legislation on the sale of poisons....376
Leidy, Dr. Joseph, on the seat of the vesicating principle of Lytta vittata...157
Letter from Dr. Flükiger, President of the Swiss Apothecaries' Association..569
Leube, Jr., G., proximate analysis of kamala....551
Liebig, Prof., on the artificial formation of tartaric acid.... 86
" " researches on some organic acids....345
" " on the formation of tartaric acid from sugar of milk and gum..264
Lignum nephriticum.... 87
Lignaloe.... 57
Lime, saccharated....167
Lint, substitute for....180
Liquor opii compositus....120
Liquor ferri iodidi and tests for iodine....171
Liquor ferri pyrophosphatis.... 39
Liquor ferri tersulphatis.... 29
Liquor ferri persulphatis.... 33
Liquor ferri peracetatis....309
Liquidamber styraciflua, resin of....197
List of graduates of the Philadelphia College of Pharmacy, 1860....277
Living plants for cultivation, transportation of.... 49
Luboldt, M., on the action of tannin on aqueous ether....322

Madder....465
Magnesian light....424
Mahla, Dr. F., on gallic and gallhumic acid.... 79
Maisch, John M., examination of oil of peppermint....105
" " on some preparations of calamus root....113
" " gleanings from the German Journals....42, 135, 442
" " Alumen exsiccatum.... 16
" " analysis of commercial glacial phosphoric acid....193
" " note on benzoic acid and some benzoates....204
" " on the detection of croton oil in mixtures....306
" " analysis of milk....431
" " chemical notes....521
Maisch's school of practical pharmacy....285
Malambo bark....161
Mallet, J. W., on the volatility of mercury below 212°....427
Manufacture of otto of roses.... 66
Manganese forms with oxygen only one acid....320
Mantegazza, Dr., on the dietetic and medicinal properties of Erythroxylon coca....417
Manufacture of vinegar, Wetherill's treatise on the....478
Martius, Dr. T. W. C., on cyclamin and cyclamen Europœum....154
" " on the preparation of caryophyllin.... 64
Marsh's process, on some failures of....350
Mauve dye....181

Mayer, Ferd. F., on American pot and pearl ashes.....132
" " on liquor ferri iodidi and the tests for iodine.....171
" " on oxalate of cerium..... 1
" " on the weighing of moist precipitates.....356
Meeting of the American Pharmaceutical Association.....468
Medico-legal treatise on malpractice, &c., Elwell's.....285
Methysticin.....133
Metallic cement, new.....182
Methyl-brucia not poisonous.....221
Methyl-strychnia not poisonous.....221
Method of assaying distilled waters.....319
Metagummic acid.....366
Menier's materia medica prize.....384
Metallic element, dianium a new.....425
Mercury, its volatility below 212° F.....427
Mill, James W., on practical knowledge..... 12
Minutes of the American Pharmaceutical Association for 1860.....517
Minutes of the Philadelphia College of Pharmacy.....277, 565
Morland, Mr. John, on arsenic in trisnitrate of bismuth.....169
Monsel's persulphate of iron..... 10
Mode of making cotton fabrics non-inflammable..... 187
Movements of fluids in porous bodies.....352
Mucic acid, products of its fermentation..... 336
Musculus, M., on the transformation of starch into dextrine and glucose....423
Myrrh, inquiries relative to..... 53
Myrospermum peruiferum..... 297

National Pharmacopœia, remarks on the.....385
Native country of the potato.....181
New process for dry valerianate of ammonia in crystals.....109
New test for the vegetable alkaloids.....137
New plaster.....183
New reagent for the alkaloids.....235
New application of collodion in the arts.....236
New medical journals.....288
New Belgian Pharmacopœia.....317
New alkaloid from coca.....450
New form of chloride of sodium.....545
New way to discover leaks in gas pipes.....466

Results of analysis of Pennsylvania petroleum.....451
Resinoids, amount of, manufactured at Cincinnati.....455
Resignation of Prof. Grahame.....383
Resinous exudation of Liquidamber styraciflua.....197
Rhubarb, inquiries in relation to.....55
Rhubarb, detection of the adulteration of, by essential oils.....433
Rhatany root.....57
Rhamnus oleiferous.....413
Rigault, M., on the products of the fermentation of mucic acid.....336
Rillot, Emile, on the means of detecting the adulteration of Chinese rhubarb by essential oils.....433
Robbins, Mr., on pyrophosphate of iron.....326
Roots, barks, herbs, flowers and seeds, preservation of.....556
Rotten stone.....463

Saccharated lime.....167
Sagapenum, inquiries in relation to.....55
Santonate of the protoxide of mercury as a vermifuge.....159
Sandal wood, analysis of red.....6
Sapindus saponaria.....245
Sarsaparilla, inquiries in relation to.....57
Sarzeau, M., on the preparation of an aerated chalybeate water.....245
Schiel, M., determination of nicotina in tobacco.....137
Schlimpert, A., on solubility of alkaloids in chloroform.....160
Schweizer's cupro-ammoniacal solution.....43
Schweizer, Julius, on the preparation of unguentum hydrargyri nitratis.....272
Scheil, J., on the influence of chlorous acid on organic substances.....443
Scherer, Prof., on the detection and estimation of phosporus and phosphoric acid.....461
Schæffer, M., on the double iodides of antimony.....558
Seat of the vesiccating principle of potato flies.....157
Seeds of Phellandrium aquaticum.....211
Separation of iron from sulphate of copper.....523
Shultz, M., on a new test for vegetable alkaloids.....137, 234
Sharpe, Sutton, on pharmacy in Piedmont.....546
Silvering copper and brass surfaces, easy means of.....224
Smith, Prof. J. Lawrence, on tartro-citric lemonade.....408
" " on hypophosphite of quinia.....410
Soap bark of South America.....241
Soda, pyrophosphate of.....36
Solubility of alkaloids in chloroform.....160
Solubility of alkaloids in olive oil.....185
Soluble glass.....181
Solution of iodine in aqueous ether.....524

Specific gravity of water at different temperatures.....145
Specific gravity of mixtures of alcohol and water.....349
Species St. Germain.....312
Squibb, Dr. E. R., on opium as a therapeutic agent.....115
" " observations upon some formulæ and processes that may be brought forward for admission into the next Pharmacopœia..... 29
Stahschmidt, M., on the non-poisonous nature of methyl-brucia and methyl-strychnia.....220
Stabler, Dr. R. H., on propylamin.....111
St. Louis Pharmaceutical Association, officers of, for 1860.....188
Statistics of indigenous drugs.....455
Stillé's therapeutics, notice of.....190
Storax, inquires relative to..... 54
Storer, F. H., on the impurities in commercial zinc.....402
Strychnia in woorari..... 42
Sumbul root, inquiries relative to..... 54
Sunday closing movement in Philadelphia.....473
Substitute for lint.....180
Succinic acid, produced by fermentation of grain..... 63
Syrup of squill, prepared by diluted alcohol.....258
Syrup of iodohydrargyrate of iodide of iron.....317
Syrup of rhubarb, formula for aromatic.....329
Syrup of sesquichloride of iron, decoloration of.....318
Syrups, preservation of.....553
Syrupus calami.....113
Syrupus ferri pyrophosphatis..... 40
Syrupus balsami Peruviani.....219
Syrupus capsici.....219
Syrupus lactucarii.....218
Synthesis of acetic acid.....445
Synthesis of salicylic acid.....220, 246

Table of weights, Taylor's..... 99
Tannin on ether and water, action of.....322
Tannate of bismuth.....246
Tartaric acid, artificial formation of..... 86
Tartrate of baryta..... 45
Tartro citric lemonade.....408
Taraxacum root, remarks on.....337
Taraxacum, preparation of.....340
Taylor, A. B., on the weights and measures of the Pharmacopœia..... 99
Tea tree in India.....183
Tea plant in the United States.....252
Tests for minute quantities of iodides.....136
Therapeutics and materia medica, Stillé's.....188
Thompson, W. S., on aromatic syrup of rhubarb.....329
" " on the preparation of some narcotic extracts.....539

Tests for iodine.....171
Tissier, Charles M., on nickel.....234
Tinctures, preservation of.....556
Trochisci calami.....114
Tokay wine, analysis of.....145
Trommsdorf, M., on the explosion of hypophosphite of soda..... 87
Transformation of starch into dextrine and glucose.....423
Tusson, Richard, on a new form of chloride of sodium.....545
Turmeric, African..... 58

Urate of quinia.....221
Urea, decomposition of, by nitrites.....136
Use and properties of perchloride of iron.....332
Unguentum hydrargyri nitratis.....272

Valerian, on oil of.....138
Veatch, J. A., on boracic acid in the sea water of the coast of California.....330
Vegetable alkaloids, new test for.....137
Vegetable parchment.....446
Vegetable tallow.....466
Veratria, impure..... 42
Veratria in pneumonia.....222
Vinegar, notice of Wetherill's work on the manufacture of.....478
Volatility of phosphoric acid.....448
Volatility of mercury below 212°.....427
Von Kobell, M., on a new metallic element.....425

Warner, Wm. R., on ceratum cantharidis..... 11
Water at different temperatures, specific gravity of.....145
Water proof varnishes.....275
Water, arsenic in a drinking.....541
Wayne, E. S., analysis of Pennsylvania petroleum.....451
Weighing moist precipitates.....356
Weights of the Pharmacopœia..... 97
Weights, Taylor's table of..... 99
Weights, proposed new.....181
Weights and measures of the Pharmacopœia..... 26
Wiegand, T. S., note on Bowers' glycerin.....308
Wells, Dr., the discoverer of anæsthesia.....477
Wine, analysis of Tokay.....145
Williams, John, on the properties of ecbaline.....259
Williams, C. Greville, on isomeric alkaloids.....178
Winter, Jonas, on oleum arachidis hypogææ.....292
Wild cherry bark.....399
Wœhler and Niemann, on a new alkaloid from coca 450
Wurtz, M., on the synthesis of oxygenated bases.....268
Woorari, strychnia in..... 42

Ziurek, Dr., analysis of Tokay wine.....145
Zinc, impure commercial.....402
